

Student Registration System

Functional Requirements

1. The system shall allow students to register for available courses online.
2. The system shall allow students to view and update their personal information.

Non-Functional Requirements

1. The system shall respond to user requests within 3 seconds under normal operating conditions.
2. The system shall be available 99.5% of the time during the academic semester.

Online Store

Functional Requirements

1. The system shall allow customers to search for products and view product details.
2. The system shall allow customers to add products to a shopping cart and complete purchases using online payment methods.

Non-Functional Requirements

1. The system shall protect customer data using secure encryption during data transmission.
2. The system shall support at least 100 concurrent users without significant performance degradation.
